Its subzero body temperatures have had visible effects on this fuzzleb's physique, fading it blue from tuft to toenail. " Description The Epic Furcorn first appeared on the 5th of September 2018. The Epic Furcorn is similar to the common and rare versions, however its coat of fur is much more fluffy and unkempt giving it a spherical appearance, its fur is also noticeably blue. Instead of a single leaf branch protruding from the top of its head, the Epic Furcorn has numerous little spiky branches and two large antler shaped stalks. Its eyes and eyelids are a pinkish color. Unlike the other two Furcorns, the Epic Furcorn has two toes instead of three, it has small spots on its coat, and its teeth are larger and blunter. Song See Furcorn. Breeding Epic Furcorn is only available for breeding (or buying) during limited time events. The combination to breed Epic Furcorn is different for each island. Breeding Time is 17 hours regular, 12 hours and 45 minutes enhanced time. Availability For a list of when this monster has been available, see: Breeding Availability Epic Furcorn, like all Epic Naturals are only available for breeding and/or buying some of the time during special events. Examples of such events: All monsters that appear on a certain Island. All monsters with a specific element All monsters with a specific theme A seemingly random selection of a handful of Monsters In particular, they are likely to appear during Special Occasions. Earning Rate and Maximum Income Earning rate is in coins per hour and depends on Happiness % (Likes increase Happiness), also each monster has a limit to how much income it can hold at a time. Likes Every monster has different things that they like. For every unique object that they like that's placed near the monster, the monster's happiness will increase by 25%. Placing more than one of the same liked item near a monster will still only increase its happiness by 25%. If there's a Unity Tree on the island, items don't need to be near the monsters. Below are the things liked by Epic Furcorn: See the Likes page to view a complete list of all monsters' likes. Strategy To see how efficient Epic Furcorn is at generating resources compared to other monsters check: Plant Island, Cold Island, Earth Island, Light Island Name Origin See Furcorn. Possible Monster Names To see all possible names for Epic Furcorn, see Monster Names. Costumes Main article: Costumes Spooktacle With the first appearance of Epic Furcorn dressing up on September 13th 2019 to September 16th 2019, as a celebration of Friday the 13th, it comes with Epic Furcorn with a similar costume to its original and Rare variants. Yay On December 12st, 2018, Epic Furcorn dressed up with green-and-white socks and what appears to be baubles attached to its branches. It was one of the first Epics ever to dress up for the Festival of Yay. This costume was repeated for 2019 and 2020. Notes The Epic Furcorn was one of the first Epic Monsters released along with the Epic Noggin on September 5th, 2018. Interestingly, the Rare Furcorn was also the first Rare Monsters to be released. The Epic Furcorn was the first monster to have a Dipster as a like. Epic Furcorn is one of the first Epics to dress up for both the Spooktacle and the Festival of Yay. Ironically, the sticks on the furcorn resemble a reindeer's antlers. May 19, 2021SteamGuidesMy Singing Monsters - Complete Guide to Monster Breeding 1 - steamlists.comIntroduction Breeding is probably the most essential component of this game. This guide will list out all possible breeding combinations for every monster in the game. Things to keep in mind: 1. Most monsters will have more than one possible way to breed them. Combos that are bolded are the ones that I recommend. 2. Rare monsters are bred in the exact same manner as their normal counterparts (except for single-element monsters, which are created from two triple-elemental parents who have the target element). Rare monsters can also be used in breeding attempts in place of their natural counterparts. 3. In terms of breeding, Epic monsters are the exact opposite of rares. They have very specific breeding combos for each island they are present on, and cannot breed themselves. 4. Ways to increase the odds of a successful breeding attempt are to feed the parent monsters (e.g., breeding a Drumpler means that the Noggin and Mammoth are the parent monsters) to higher levels and to light up the Wishing Torches. 5. Failure breeding is where you breed with the intention of creating the parent monster(s). Monsters that have failure breeding listed should be decently possible to obtain in this manner (I may be wrong). 6. Check out 400 for information on breeding times for monsters. Please let me know if I have made any errors, and I will fix them.
